

# V&A Families: Family Festival 2018

Monday 27 August 2018

**Celebrate the end of summer and join us for a special day full of creative fun and music!**

Work with ONEBYME designers and learn about the circular economy, make more embellishments and try on a full collection designed by families over the summer. In the morning, make mini plant pots with fabric off-cuts. In the afternoon, plant propagated basil into those pots using compost from the on-site wormery and dance to live music in The John Madejski Garden! See the programme below for details.

All events are free and drop-in and recommended for all ages.
