Fashion Roundtable: Secretariat to the All Party Parliamentary Group for Textiles and Fashion

Global Britain, Local Stories

Date: Thursday 18 July 2019

Time: 12.00-2.00 p.m.

Location: Hochhauser Auditorium, V&A

In global Britain fashion is influenced by multiple cultures which are combined and distilled to create a richer visual language. At a local level, strong cultural identities exist side by side in communities up and down the UK. Clothing is evolving to reflect these environments, providing compelling narratives about people and place, society and politics.

Our speakers are drawn from a multitude of backgrounds brought together to discuss the importance of locality and identity on their design practice.

Welcome Tristram Hunt, Director, V&A
