**Cars: Accelerating the Modern World**  
Brendan Cormier and Elizabeth Bisley, eds

Published to accompany the V&A's exhibition **Cars: Accelerating the Modern World** (23 November 2019 – 19 April 2020)

250 x 200 mm, 244 pp (150 col and b/w)  
ISBN: 9781851779673

A world without cars would be unrecognisable. They have altered the shape of our cities, transformed our nations and landscapes, revolutionised the way we make and buy things, and profoundly influenced our relationship with speed itself.

Presenting the car as the driving force that accelerated the twentieth century, this book considers topics such as the Ford Model T and the legacy of mass production; the GM LaSalle and the birth of style and obsolescence; the original Volkswagen and the expression of national identity; the GM Firebird and the desire for frictionless movement. It takes an in-depth look at the history of the automobile and its impact, to better understand where we might want to go in the future.

Paperback RRP £30  
**£25 from the V&A Shop**

**Brendan Cormier** is Senior Curator in the Design, Architecture and Digital Department at the V&A.

**Elizabeth Bisley** is a design curator and writer.
