Divinities

M&C SAATCHI
LONDON, 2018

Divinity, though without form, is omnipresent. It is that ambivalent and yet essential to life force. It is that baptismal medium from which they emerge, renewed: it is water. Just as the waves draw to and from rhythmically, their bodies move so too – interfacing in an exchange of energy that, in harmony with a tone and sun, empowers. Their limbs outstretch over the ceaseless horizon towards towards enlightenment. Yet it is only looking upon the water's surface do they find it – reflected.
