

Meet the artists – Kimiā Collective

Kimiā is a Casablanca-based collective dedicated to experimental practices in moving image, photography, and media art. Their mission is to support DIY, small-scale and handmade approaches to image-making whilst encouraging practices that creatively explore the intersection of old and new media.

Kimiā was founded in 2021 by Chahine Fellahi and Kaïs Aïouch. Since then, the collective has actively engaged in community-oriented projects and developed participatory programmes both locally and internationally. Collaborations include partnerships with institutions such as the Cinémathèque of Tangier (2021), the Majorelle Gardens in Marrakech (2022), Castlefield Gallery in Manchester (2023), and 421 Warehouse in Abu Dhabi (2024).
