# Design Spark

*Learn to spark new ideas in the Design Gallery*

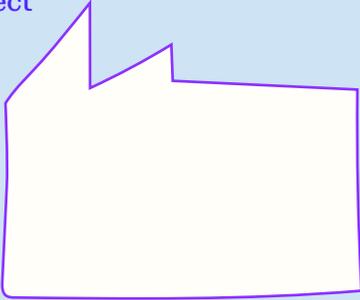

*Recommended for ages 11-14*

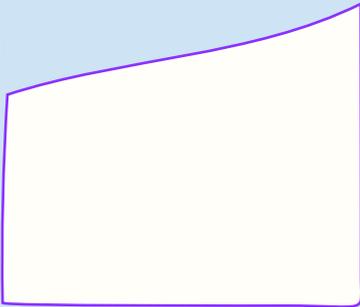

Step **1** **Research**  
Find an object and a material in the Design Gallery.

Draw any object in the Design Gallery that stands out to you

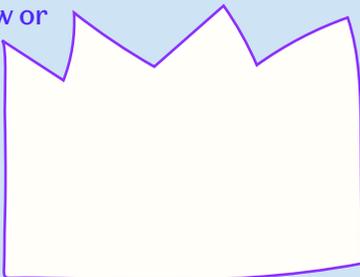

Write down one Interesting Use about your chosen object

Go to 'DESIGN CHANGES THE MATERIALS WE USE' in the Design Gallery.

Find a planet friendly material, draw or write it here

Step **2** **Brief**  
A brief is a set of instructions to guide your new design. Have a go at building your own below.

Write down your Interesting Use from step one here.

Design something that...

.....

Write down your planet friendly material from step one here.

Made from...

.....

Choose one of these themes to complete your brief, write it here:  
Encourage play  
Bring people together  
Live healthy

That can help to...

.....

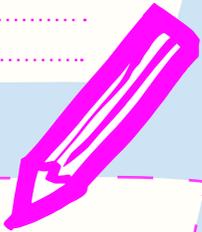

Step **3** **Create** a new design from your brief. Discuss your ideas with a friend.

Write your brief here to spark a new design idea:

Design something that... ..

Made from... ..

That can help to... ..

Draw your design in the box, use written labels to describe how it works.
